The Network Readiness Index 2019: Towards a Future-Ready Society

Cross-Boarder Coffee Break, 14
January 2020

Founded in 2019, the Portulans Institute (PI) is an independent nonprofit, nonpartisan research and educational institute based in Washington DC. Our mission is:

- To develop cross-community knowledge and dialogue on how people, technology and innovation contribute to sustainable and inclusive growth.
- To inform policy-makers, by producing independent, rigorous metrics and data-based research.
- To collaborate with private sector leaders in driving a business agenda that invests in people, technology, and innovation for a prosperous common future.
- To host and co-organize events and conferences on the above issues affecting human-centric sustainable economic prosperity.

Focus Areas

Technology
Competitiveness

Innovation
Readiness

People and Global
Talent

A Renewed and Future-Ready NRI

- **2000:** first steps for holistic framework on impact of ICT : NRI as part of GITR
- **2009:** impact pillar introduced in NRI
- **2016:** last issue of NRI published by the WEF

➡ Consolidated as an influential global benchmark for application and utilization of ICT

- **2019: NRI** framework revisited

➡ Redesigned NRI that is reflective of current ICT landscape and is future-ready

The NRI 2019 model

➔ Underlying principle: our collective future will require a harmonious integration of people and technology

Structure of model:

4

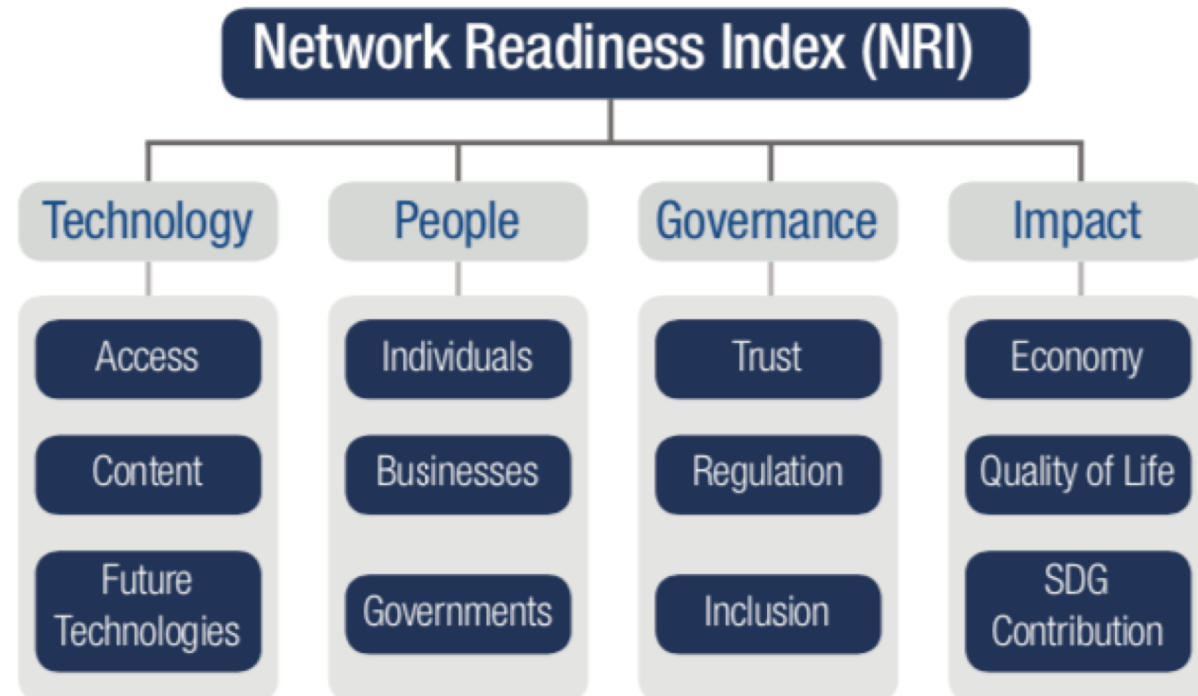

pillars

12

sub-pillars

62

indicators

NRI 2019 rankings

Main results:

- **121** economies covered
- **Top 3:** Sweden, Singapore, and the Netherlands
- **High-income countries** dominate

Country	NRI rank	NRI score
Sweden	1	82.65
Singapore	2	82.13
Netherlands	3	81.78
Norway	4	81.30
Switzerland	5	81.08
Denmark	6	81.08
Finland	7	80.34
United States	8	80.32
Germany	9	78.23
United Kingdom	10	77.73

Network readiness and income

Top performers by income group

- Only high-income countries in top quartile
- Performances follow expected order in terms of level of income
- Yet leaders offer positive perspectives in all income groups

High-income countries

1. Sweden (1)

2. Singapore (2)

3. Netherlands (3)

Upper-middle-income countries

1. Malaysia (32)

2. China (41)

3. Romania (47)

Lower-middle-income countries

1. Viet Nam (63)

2. Moldova (66)

3. Ukraine (67)

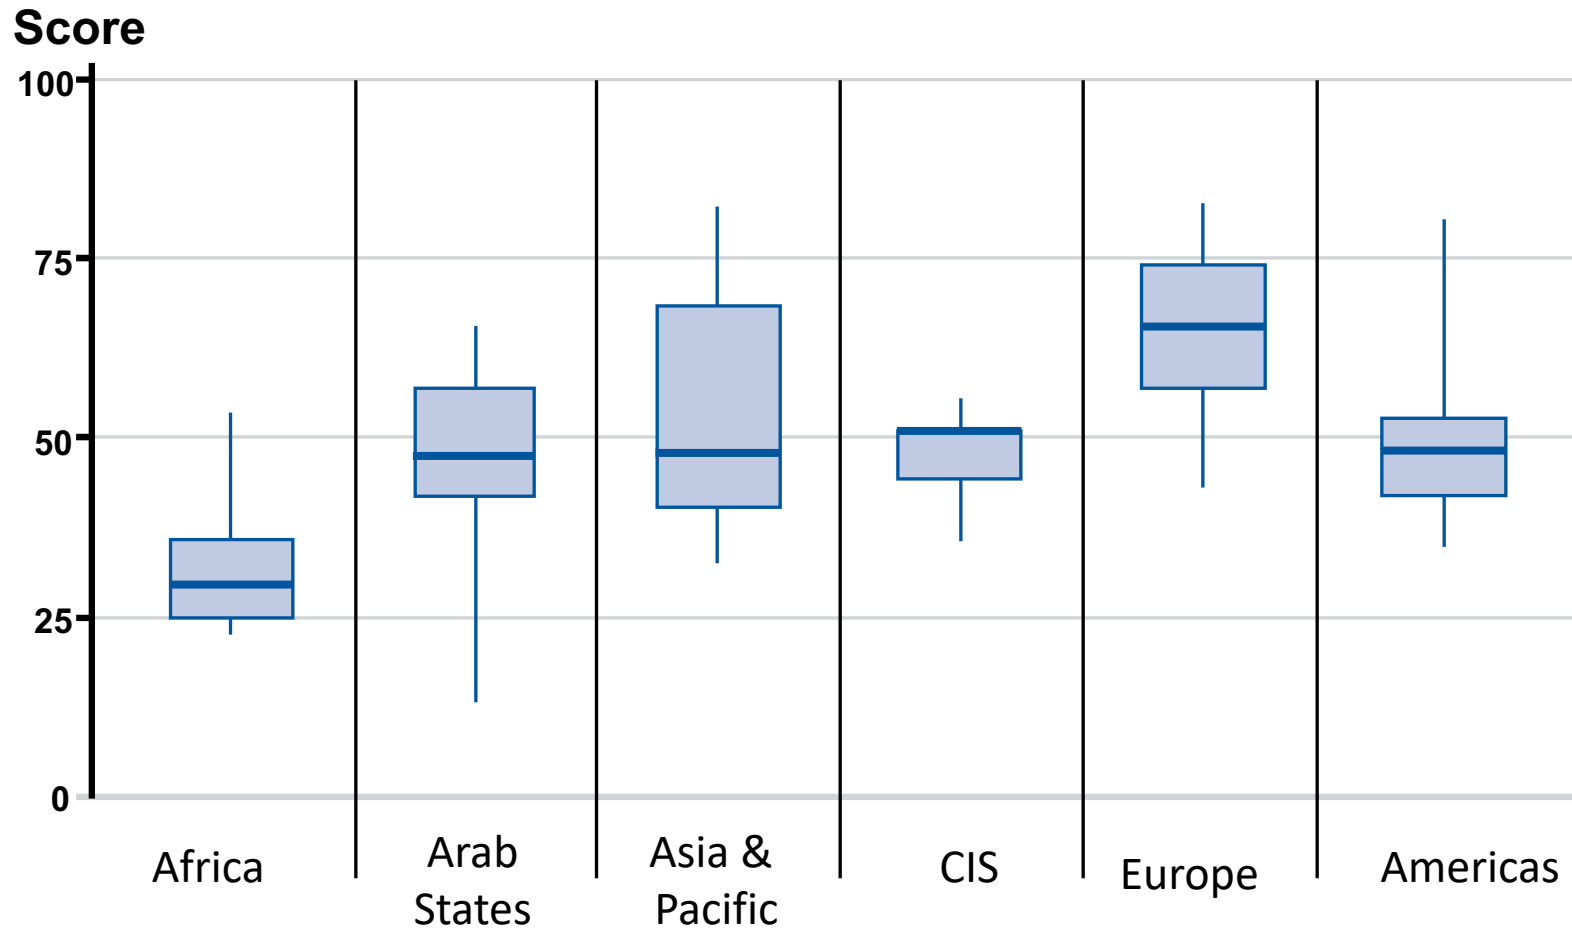

Low-income countries

1. Rwanda (89)

2. Tajikistan (99)

3. Nepal (106)

Regional performances

- Europe leads
- Africa lags
- Dispersion is highest in Asia-Pacific

Top performers by region

- Only one African country in first half of the rankings
- Divergence between North and South America
- Digital divides may be amplified in the future

Africa

- | | |
|-----------------|------|
| 1. Mauritius | (53) |
| 2. South Africa | (72) |
| 3. Rwanda | (89) |

Asia & Pacific

- | | |
|--------------|------|
| 1. Singapore | (2) |
| 2. Japan | (12) |
| 3. Australia | (13) |

Europe

- | | |
|----------------|-----|
| 1. Sweden | (1) |
| 2. Netherlands | (3) |
| 3. Norway | (4) |

Arab States

- | | |
|-------------------------|------|
| 1. United Arab Emirates | (29) |
| 2. Qatar | (33) |
| 3. Bahrain | (40) |

CIS

- | | |
|---------------|------|
| 1. Russia | (48) |
| 2. Kazakhstan | (60) |
| 3. Belarus | (61) |

The Americas

- | | |
|------------------|------|
| 1. United States | (8) |
| 2. Canada | (14) |
| 3. Chile | (42) |

NRI 2019 rankings by pillar

- Differences between regions are very similar across all pillars
- Africa lags even more on impact
- Governance is the 'less unequal' pillar

NRI 2019 rankings by pillar (cont.)

Top 3 performers

Technology:

United States
the Netherlands
Switzerland

People:

Denmark
Sweden
South Korea

Governance:

Norway
New Zealand
Luxembourg

Impact:

Singapore
Switzerland
Sweden

Future readiness can help achieve SDGs

- Network readiness has direct potential for SDGs 3, 4, 8, 9, 11
- All SDGs will benefit from global future readiness
- Addressing digital divides requires urgent and innovative action

Key messages

- 
- 1 The champions of 2019 were already there in 2016
 - 2 Integrating people and technology with right governance structure is key to collective prosperous future
 - 3 Technological divide remains important concern
 - 4 Technology and impact of ICT drive regional differences
 - 5 Urgent policy measures needed for global future-readiness
 - 6 Technological innovation is a powerful tool for SDGs
