## Research Center for Women in Senior Management

IPADE Business School

Mexico

The Research Center for Women in Senior Management is a leading research center focusing on topics related to women in governing boards, high-impact female entrepreneurs, strategies for the promotion and inclusion of female talent in organizations, and the creations of cultures and environments that promote complementarity between women and men.

The Center has developed more than 25 cases, 11 books, 5 international seminars, numerous articles, events, special programs and participations in congresses and forums. Also, the article "Burnout effect on mothers in leadership positions during the COVID-19 lockdown" has been publicated in the Journal of Gender in Management.
